Subject: Re: Newark Lead in Schools

Judith wants us to speak with her to hear her historic perspective. I believe next week should be fine.

Not this week and I would recommend you tell her to contact the district and NJDEP directly as they are taking the lead on this right now.

If there are issues she still feels need epa attention after that I would suggest you set up a call with her and Evangelia next week.

Thanks

Hi Dore, hi Doug -

Kim Gaddy is wondering if we could talk about Newark schools today.

Kim spoke at the Senior Leadership retreat yesterday. She's a Newark resident and served on the school board, and has background knowledge about school drinking water and lead concerns.

Thanks,

Christine Ash

Subject: Re: Newark Lead in Schools

Can it happen today?

Kim

Hi Kim - do you have time early next for a call to discuss your knowledge and history of lead in school drinking water in Newark with myself and a few EPA colleagues? Perhaps Monday or Tuesday afternoon?

Thanks!
